1. NATURE OF OPERATIONS AND ABILITY TO CONTINUE AS A GOING CONCERN

The Company is incorporated under the Company Act of British Columbia, is in the exploration stage and its shares are publicly traded on the TSX Venture Exchange under the symbol CGE.

The Company's resource properties are without a known body of commercial ore. The business of exploring for resources and mining involves a high degree of risk. Few properties that are explored are ultimately developed into producing mines. Major expenses may be required to establish ore reserves, to develop metallurgical processes, to acquire construction and operating permits and to construct mining and processing facilities. The recoverability of the amount shown for resource properties is dependent upon the ability of the Company to obtain the necessary financing to complete the exploration and development of the properties, discovery of economically recoverable reserves and future profitable production. There is no assurance that the Company will be successful in recovering the amounts shown for resource properties.

These financial statements have been prepared in accordance with accounting principles applicable to a going concern, which assumes that the Company will realize its assets and discharge its liabilities and commitments in the ordinary course of business. At March 31, 2010, the Company has recurring losses, has an accumulated deficit of \$20,106,083 and has not generated cash from operating activities since inception with the exception of the proceeds from a bulk sampling program. The Company will require additional financing in order to conduct its planned work programs on mineral properties, meet its ongoing levels of corporate overhead and discharge its liabilities as they come due. While the Company has been successful in securing financings in the past, there is no assurance that it will be able to do so in the future. Accordingly, these financial statements do not give effect to adjustments, if any, that would be necessary should the Company be unable to continue as a going concern. If the going concern assumption was not used then the adjustments required to report the Company's assets and liabilities on a liquidation basis could be material to these financial statements.

2. BASIS OF PRESENTATION

These interim consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles ("GAAP").

These unaudited interim consolidated financial statements do not contain all of the information required for annual financial statements and they should be read in conjunction with the Company's annual audited financial statements for the fiscal year ended December 31, 2009. All material adjustments, which in the opinion of management are necessary for a fair presentation of the results of the interim periods, have been reflected.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The results for the three months ended March 31, 2010 are stated utilizing the same accounting policies and methods of application as the most recent annual audited financial statements, but are not necessarily indicative of the results to be expected for the full year.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Recently Released Accounting Pronouncements

i) Business Combinations

In January 2009, the CICA issued Section 1582 – Business Combinations, which replaces Section 1581 – Business Combinations, and Section 1601 – Consolidated Financial Statements and Section 1602 – Non-Controlling Interests, which replace Section 1600 – Consolidated Financial Statements. These new sections are effective for years beginning on or after January 1, 2011 with earlier adoption permitted. Sections 1582 and 1602 will require net assets, non-controlling interests and goodwill acquired in a business combination to be recorded at fair value and non-controlling interests will be reported as a component of equity. In addition, the definition of a business is expanded and is described as an integrated set of activities and assets that are capable of being managed to provide a return to investors or economic benefits to owners. As well acquisition costs are not part of the consideration and are to be expensed when incurred. These new sections are not expected to have a material impact on the Company’s financial condition or operating results.

ii) International Financial Reporting Standards (“IFRS”)

In 2006, The Canadian Accounting Standards Board (“AcSB”) published a new strategic plan that will significantly affect financial reporting requirements for Canadian companies. The AcSB strategic plan outlines the convergence of Canadian GAAP with IFRS over an expected five-year transitional period. In February 2008, the AcSB announced that 2011 is the changeover date for publicly listed companies to use IFRS, replacing Canada’s own GAAP. The date is for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. The transition date of January 1, 2010 will require the restatement for comparative purposes of amounts reported by the Company for the year ended December 31, 2011. The Company continues to monitor and assess the impact of the convergence of Canadian GAAP and IFRS.

6. RESOURCE PROPERTIES

Title to resource properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many resource properties. The Company has investigated title to all of its resource properties and, to the best of its knowledge titles to all of its properties are in good standing.

MEXICO

Santana Property

On December 11, 2007 the Company signed two property option agreements under which it collectively holds rights to acquire a 100% interest in two contiguous mining concessions. In addition to the concessions under option Corex has staked two additional contiguous concessions and all four are collectively known as the "Santana Property". The Santana Property covers approximately 7,000 hectares and is located approximately 200 kilometers east-southeast of Hermosillo, Sonora, Mexico. Terms of the above stated option agreements are as follows:

The Hilda 35 Fraccion 1 is also subject to a 2% net smelter return (NSR). Each 1% NSR can be purchased for US\$1,000,000 within the three years following the conclusion of the feasibility study with positive results.

On July 22, 2009 Corex and Virgin Metals Inc. ("Virgin") signed an option agreement under which Corex's Mexican subsidiary was granted an option to acquire from Virgin's Mexican subsidiary a 100% interest in three concessions (the "Hilda Concessions") covering 722 ha. that are contiguous to the northern boundary of Corex's Santana property. To acquire the Hilda Concessions Corex must pay Virgin a total of \$340,000, issue Virgin 500,000 common shares and incur \$450,000 in exploration expenditures on the Hilda Concessions over a three year period.

Under the option agreement, Corex paid Virgin \$25,000 upon execution (paid) and must issue Virgin 50,000 shares upon TSX Venture Exchange acceptance of the agreement (issued on July 30, 2009). In order to exercise the option, Corex must make payments, issue shares, and incur exploration expenditures as follows:

By July 22, 2010	pay \$35,000, issue 100,000 shares, incur \$100,000 in expenditures
By July 22, 2011	pay \$50,000, issue 150,000 shares, incur \$150,000 in expenditures
By July 22, 2012	pay \$230,000, issue 200,000 shares, incur \$200,000 in expenditures

Santana Property (cont'd)

Upon exercise of the option Virgin will retain a 2% NSR royalty on the Hilda Concessions, which can be acquired by Corex at any time for US\$1,500,000. Under the option agreement Virgin has rights to back-in and acquire any mineralized zones on the Hilda Fracc 2 concession that contain copper and molybdenum mineralization assaying not less than 0.05% Mo, provided the zone does not also contain gold mineralization assaying greater than 0.2 g/t Au, by paying Corex three times Corex's exploration expenditures on the ground acquired by Virgin.

The San Lucia, Hilda 35 Fraccion 1 and Hilda Concessions, are collectively referred to as the Santana Property.

7. SHARE CAPITAL AND CONTRIBUTED SURPLUS

During the period ended March 31, 2010 the Company did not complete any financings.

On June 12, 2009 the Company completed a non-brokered private placement of 3,000,000 Units, at \$0.20 per unit for total gross proceeds of \$600,000. Each unit consisted of one common share and one share purchase warrant, exercisable by the holder to acquire one additional common share at a price of \$0.32 in year one and \$0.45 in year two. The warrants are subject to an accelerated expiry which comes into effect once the shares trade above a weighted average price of \$0.50 for any twenty consecutive trading-day period in year one, or \$0.65 for any twenty consecutive trading-day period in year two, subsequent to four months from Closing. In the event of an accelerated expiry, the expiry date will be the earlier of the regular two year expiry date and 30 days from the date the Company advises the placees of the accelerated expiry.

On September 23, 2009 the Company completed a non-brokered private placement for 4,600,000 units at a price of \$0.50 per unit, for aggregate gross proceeds of \$2,300,000. Each unit consisted of one common share and one warrant, exercisable by the holder to acquire one additional common share at a price of \$0.70 for 24 months from Closing. The warrants are subject to an accelerated expiry which comes into effect once the shares trade above a weighted average price of \$1.00 for any twenty consecutive trading-day period, subsequent to four months from Closing. In the event of an accelerated expiry, the expiry date will be the earlier of the regular two year expiry date and 30 days from the date the Company advises the placees of the accelerated expiry.

Escrowed Shares:

As at March 31, 2010 and December 31, 2009 5,625 shares are held in escrow, subject to release by regulatory approval.

Commitments:

a) Stock-based Compensation Plan:

The Company has a stock option plan (the "Plan") for officers, directors, employees and consultants whereby a maximum of 10% of the issued shares will be reserved for issuance under the Plan. Options are granted with an exercise price determined by the Board of Directors, which may not be less than the market price of the Company's stock on the date of the grant. The vesting provisions are determined by the Board of Directors and are defined in each stock option agreement.

7. SHARE CAPITAL AND CONTRIBUTED SURPLUS (cont'd)

Commitments: (cont'd)

a) Stock-based Compensation Plan: (cont'd)

During the period ended March 31, 2010, a compensation charge associated with the granting of stock options under the Plan in the amount of \$397,067 (2009 - \$87,380) was recognized in the financial statements. For purposes of these calculations, the following assumptions were used for the Black-Scholes model:

	March 31, 2009	March 31, 2009
Risk-free interest rate	2.86	2.2%
Expected dividend yield	0%	0%
Expected stock price volatility	114.57	110.34%
Expected option life	5 years	5 years

In addition to the grant of options, the Company re-priced 1,060,000 options with exercise prices of \$0.40 - \$1.04 per share to an exercise price of \$0.20 per share. The incremental fair value of stock-based compensation adjustment in the amount of \$29,626 has been recorded as a credit with the offsetting entry to contributed surplus. This incremental value was measured by the difference between the fair value of the modified stock options and the value of the old options immediately before its terms were modified. This value is estimated at the date of grant using the Black-Scholes Option Pricing Model with the following weighted average assumptions:

	March 31, 210	March 31, 2010

9. NON-CASH TRANSACTIONS

Investing and financing activities that do not have a direct impact on current cash flows are excluded from the consolidated statements of cash flows. During the three month period ended March 31, 2010, and March 31, 2009 the Company did not enter into any non cash transactions

10. FINANCIAL INSTRUMENTS

The Company's financial instruments consist of cash and cash equivalents, receivables, marketable securities and accounts payable and accrued liabilities. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments.

The fair value of the cash and cash equivalents, receivables, accounts payable and accrued liabilities, approximate carrying value because of the short term nature of these instruments.

The fair value hierarchy of financial instruments measured at fair value on the balance sheet is as follows:

	March 31 2010	December 31 2009
	Level 1	Level 1
Cash and cash equivalents	\$1,138,298	\$2,221,120
Marketable securities	510	264
Total	\$1,138,808	\$2,221,384

The Company does not have Level 2 or Level 3 inputs as described in the Company's accounting policies.

Of the financial assets listed above, \$533,053 (2009 - \$1,331,683) represents cash held in United States dollars, and \$101,833 (2009 – \$18,934) represents cash held in Mexican Pesos. The remaining cash is held in Canadian dollars.

Credit Risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Company's cash and cash equivalents and receivables are exposed to credit risk. The Company reduces its credit risk on cash by placing these instruments with institutions of high credit worthiness. As at March 31, 2010 the Company was not exposed to any significant credit risk.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Included in the loss for the period in the financial statements is interest income on Canadian dollar cash. As at March 31, 2010, the Company's cash was subject to or exposed to interest rate risk, however, this risk is not significant.

Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities. The Company manages liquidity risk by maintaining sufficient cash balance to enable settlement of transactions on the due date. Accounts payable and accrued liabilities are current. The Company addresses its liquidity through equity financing obtained through the sale of common shares and the exercise of warrants and options

10. FINANCIAL INSTRUMENTS (cont'd)

Currency risk

Cash held in foreign currencies other than the Canadian dollar is subject to currency risk. The Company is exposed to currency risk by incurring certain expenditures in currencies other than the Canadian dollar. The Company does not use derivative instruments to reduce its currency risk.

At March 31, 2010, approximately 3% (December 31, 2009 – 3%) of the Company's accounts payable and accrued liabilities are denominated in Mexican Pesos. The Company does not use derivative instruments or foreign exchange contracts to hedge against gains or losses arising from foreign exchange fluctuations.

11. CAPITAL DISCLOSURE

The Company manages and adjusts its capital structure based on available funds in order to support its operations and the acquisition and exploration of mineral properties. The Company's primary objectives in managing capital are to:

- Safeguard the entity's ability to continue as a going concern
- Maintain an optimal capital base in order to support the capital requirements of its operations, including growth opportunities and maintaining investor confidence.

The capital of the Company consists of shareholders' equity. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company is not subject to any externally imposed capital requirements. The Company relies on capital markets to support continued growth.

12. SEGMENTED INFORMATION

Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operation decision maker, or decision-making group, in deciding how to allocate resources and in assessing performance. All of the Company's operations are within the mining sector relating to gold exploration. Due to the geographic and political diversity, the Company's exploration operations are decentralized whereby an exploration manager is responsible for business results and a regional corporate office provides support to the exploration programs in addressing local and regional issues. The Company's operations are therefore segmented on a district basis. The Company's assets are located in Canada and Mexico.
