COREX GOLD CORPORATION
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(An Exploration Stage Company)
SIX MONTHS ENDED June 30, 2007
(Unaudited See Readers Notice)

1. NATURE OF OPERATIONS

The Company is incorporated under the Company Act of British Columbia, is in the development stage and its shares are publicly traded on the TSX Venture Exchange.

The Company changed its year end from April 30 to December 31 and accordingly the fiscal year is for the eight months ended December 31, 2006 as reported on the Consolidated Balance Sheets. The Comparative period for June 30, 2007 for the Consolidated Statements of Loss and Deficit and Consolidated Statement of Cash Flows for the interim period is the six months ended July 31, 2006.

The Company's mineral properties are without a known body of commercial ore. The business of exploring for minerals and mining involves a high degree of risk. Few properties that are explored are ultimately developed into producing mines. Major expenses may be required to establish ore reserves, to develop metallurgical processes, to acquire construction and operating permits and to construct mining and processing facilities. The recoverability of the amount shown for mineral property costs is dependent upon the ability of the Company to obtain the necessary financing to complete the exploration and development of the properties, discovery of economically recoverable reserves and future profitable production. There is no assurance that the Company will be successful in recovering the amounts shown for mineral properties.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements of the Company have been prepared in accordance with generally accepted accounting principles in Canada. Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements for a period necessarily involves the use of estimates which have been made using careful judgement. Actual results may differ from these estimates.

The consolidated financial statements have, in management's opinion, been properly prepared within the framework of the significant accounting policies summarized as follows:

Basis of Consolidation

These consolidated financial statements include the accounts of the Company and its wholly owned U.S. subsidiary, Latitude Operating Company (incorporated in Nevada) and its wholly-owned Mexican subsidiary, Corex Global S. de R.L. de C.V. ("Corex Global"). All inter-company transactions and balances have been eliminated.

Cash and Equivalents

Cash and cash equivalents consist of all highly liquid investments that are readily convertible to cash and have maturities of three months or less when purchased.

Financial Instruments

The carrying value of cash and cash equivalents, receivables and accounts payable and accrued liabilities approximate fair value as a result of the short maturity of those instruments. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments.

COREX GOLD CORPORATION
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(An Exploration Stage Company)
SIX MONTHS ENDED June 30, 2007
(Unaudited See Readers Notice)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Equipment and Amortization

Equipment is recorded at cost and is amortized over their useful lives using the straight-line method with the following annual rates:

Furniture and equipment	20%
Computer equipment	30%
Vehicles	30%

Resource Properties

The Company capitalizes the cost of acquiring, maintaining its interest, exploring and developing mineral properties until such time as the properties are placed into production, abandoned, sold or considered to be impaired in value. Proceeds received on the sale of interests in mineral properties are credited to the carrying value of the mineral properties, with any excess included in operations. Write-downs due to impairment in value are charged to operations.

Management reviews the carrying value of mineral properties on a periodic basis and will recognize impairment in value based upon current exploration results, the prospect of further work being carried out by the Company, the assessment of future probability of profitable revenues from the property or from the sale of the property. Amounts shown for properties represent costs incurred net of write-downs and recoveries, and are not intended to represent present or future values.

Stock-based Compensation

The fair value of all share purchase options granted are expensed over their vesting period with a corresponding increase to contributed surplus. Upon exercise of share purchase options, the consideration paid by the option holder, together with the amount previously recognized in contributed surplus, is recorded as an increase to share capital.

The Company uses the Black-Scholes option valuation model to calculate the fair value of share purchase options at the date of grant. Option pricing models require the input of highly subjective assumptions, including the expected price volatility. Changes in these assumptions can materially affect the fair value estimate and, therefore, the existing models do not necessarily provide a reliable single measure of the fair value of the Company's share purchase options.

Foreign Currency Translation

The accounts of the non-Canadian subsidiaries, which are considered to be dependent on the Company, and transactions of the Company denominated in foreign currencies, are translated to Canadian dollars using the temporal method. Under this method, monetary assets and liabilities are translated at the current rate of exchange and other assets and liabilities are translated at historical rates of exchange. Revenues and expenses are translated at average rates of exchange for the period, except for depreciation and amortization, which are translated at rates in effect when the related assets were acquired. All exchange gains and losses are recognized currently in earnings.

COREX GOLD CORPORATION
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(An Exploration Stage Company)
SIX MONTHS ENDED June 30, 2007
(Unaudited See Readers Notice)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Loss Per Share

Basic loss per share is computed by dividing the loss for the period by the weighted average number of common shares outstanding during the period. Diluted earnings per share reflect the potential dilution that could occur if potentially dilutive securities were exercised or converted to common stock. The dilutive effect of options and warrants and their equivalent is computed by application of the treasury stock method and the effect of convertible securities by the "if converted" method. Fully diluted amounts are not presented when the effect of the computations are anti-dilutive due to the losses incurred. Accordingly, there is no difference in the amounts presented for basic and diluted loss per share.

Comparative Figures

Certain figures have been reclassified to conform to the current period's presentation.

4. RESOURCE PROPERTIES (cont'd)

Title to resource properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many resource properties. The Company has investigated title to all of its resource properties and, to the best of its knowledge, title to all of its properties are in good standing.

MEXICO

Zuloaga/Santa Rita Properties

To date the Company has staked 16,896 hectares in Zacatecas, Mexico that comprises the Zuloaga property and is owned 100% by the Company.

During the year ended April 30, 2005, the Company staked a further 22,982 hectares in Zacatecas, Mexico that comprises the Santa Rita property and is owned 100% by the Company.

In June 2006, the Company entered into an option agreement with Hemis Corporation ("Hemis") whereby Hemis may earn a 49% interest in the Santa Rita property by spending US\$950,000 in exploration expenditures over a three year term and by issuing the Company 200,000 (25,000 received) common shares of Hemis. Hemis became a publicly listed entity subsequent to December 31, 2006 and accordingly the shares had no market value when received.

On January 25, 2007 the Company entered into an earn-in agreement with Goldcorp Inc.'s Mexican subsidiary, Glamis Exploration S.A. de C.V ("Goldcorp"). Under the terms of this agreement, Goldcorp has the right to earn up to an 80% interest in the Zuloaga and Santa Rita properties (the "Property"). The earn-in agreement provides for Goldcorp to earn a 70% interest in the Property by spending US\$4,000,000 over a 5-year period and paying the Company US\$150,000 over an 18 month period with US\$50,000 due upon signing the agreement (received). Goldcorp has the option to increase its interest from 70% to 80% upon paying 100% of the expenditures associated with placing the Property or any part thereof, into commercial production based on a mine development project approved for all or part of the Property, with 20% to be repayable to Goldcorp from the Company's related project cash-flows, or arranging the proportionate share of a debt financing.

In connection with the above-noted earn-in agreement, the option agreement with Hemis was replaced on January 29, 2007 such that Hemis may earn a 49% interest in whatever interest the Company holds in the Santa Rita property by paying the Company US\$1,000,000 over two years with US\$200,000 due on signing (received) and issuing the Company 175,000 common shares (50,000 received) over an eighteen month period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(An Exploration Stage Company)
SIX MONTHS ENDED June 30, 2007
(Unaudited See Readers Notice)

4. RESOURCE PROPERTIES (cont'd)

MEXICO (cont'd)

Caliche Properties

The Company entered into a Memorandum of Understanding dated December 15, 2006, wherein it was granted an exclusive due diligence period of 45 days to review certain data and information pertaining to an area located in the Sonora State of Mexico, known as the Caliche Property which consists of thirteen contiguous mining concessions of approximately 1,500 hectares. The Company paid the vendor \$11,664 (US\$10,000) in consideration of the exclusive review period.

On February 7, 2007 the Company entered into two property option agreements to acquire a 100% interest in the Caliche property. The interest is earned by paying the optionors, collectively, US\$1,740,000 over three years.

ARGENTINA

Evelina Property

On May 1, 2006 the Company entered into an option agreement with Viceroy Exploration Ltd. ("Viceroy"), a company with a common director, whereby Corex can earn a 60% interest in the Evelina Property located in Argentina by incurring minimum annual exploration expenditures aggregating to US \$3.5 million over four years, and by issuing a total of 800,000 common shares (100,000 issued) over four years. Viceroy has the right to increase its interest to 60%, thereby reducing Corex's interest to 40% by incurring one and a half times the US\$3,500,000 expenditures made by Corex.

The Company elected to terminate the option on the Evelina property and focus its efforts on its Mexico properties. As at December 31, 2006, acquisition and deferred exploration costs of \$130,296 were written off.

5. SHARE CAPITAL (cont'd)

On June 6, 2007 the Company completed a private placement for 5,560,000 units at \$0.90 per unit for gross proceeds of \$5,004,000. Each unit consists of one common share and one-half of one transferable common share purchase warrant. Each whole warrant is exercisable to purchase one common share of the Company at \$1.25 per share for two years. The Company paid the agent a fee of 7% of the gross proceeds raised in cash and issued to the agent 389,200 compensation options entitling the agent to acquire that number of shares for two years at \$0.94 per share ("Agent's Option"). Share issue costs include the stock based compensation expense of \$140,518 for these options. Note 5 a)

Escrowed Shares:

As at June 30, 2007, 5,625 shares are held in escrow, subject to release by regulatory approval.

Commitments:

a) Stock-based Compensation Plan:

The Company has a stock option plan (the "Plan") for officers, directors, employees and consultants whereby a maximum of 10% of the issued shares will be reserved for issuance under the Plan. Options are granted with an exercise price determined by the Board of Directors, which may not be less than the market price of the Company's stock on the date of the grant. The vesting provisions are determined by the Board of Directors and are defined in each stock option agreement.

At June 30, 2007, 1,695,409 stock options were outstanding under the Plan and 389,200 Agents Options as follows:

<u>Number</u>	<u>Exercise price</u>	<u>Expiry Date</u>
762,998	\$0.25	September 2, 2008
87,411	\$0.60	January 15, 2009
480,000	\$0.65	October 3, 2010

(An Exploration Stage Company)
SIX MONTHS ENDED June 30, 2007
(Unaudited See Readers Notice)

5. SHARE CAPITAL (cont'd)

Commitments: (cont'd)

a) Stock-based Compensation Plan:

During the period ended June 30, 2007, a compensation charge associated with the granting of stock options under the Plan in the amount of \$246,519 (December 31, 2006 - \$Nil) was recognized in the financial statements. In addition a compensation charge associated with agents options granted in accordance with a private placement in the amount of 140,518 was allocated to share issue costs. For purposes of these calculations, the following assumptions were used for the Black-Scholes model:

	June 30 2007	December 31 2006
Risk-free interest rate	4.06 – 4.67%	—
Expected dividend yield	0%	—
Expected stock price volatility	64.96 - 77.07%	—
Expected option life	2 - 5 years	—

b) Share Purchase Warrants:

At June 30, 2007, 2,780,000 share purchase warrants were outstanding. Each warrant entitles the holders thereof the right to purchase one common share as follows:

<u>Number</u>	<u>Price Per Share</u>	<u>Expiry Date</u>
2,780,000	\$1.25	June 6, 2009

A summary of the changes in the Company's share purchase warrants outstanding for the six months ended June 30, 2007 and eight months ended December 31, 2006 is as follows:

COREX GOLD CORPORATION
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(An Exploration Stage Company)
SIX MONTHS ENDED June 30, 2007
(Unaudited See Readers Notice)

6. RELATED PARTY TRANSACTIONS – Note 4

The Company incurred the following amounts charged by directors/officers of the Company and companies controlled by directors/officers of the Company for the six months ended:

	June 30		July 31
	<u>2007</u>		<u>2006</u>
Geological consulting fees-deferred exploration	\$ 84,800	\$	15,048
Property evaluation	—		1,452
Consulting fees	39,000		39,000
Rent (recovery)	(8,850)		(9,356)
	<u>\$ 114,950</u>		<u>\$ 46,144</u>

These charges were measured by the exchange amount which is the amount agreed upon by the transacting parties.

At June 30, 2007, receivables include \$11,646 (July 31, 2006 - \$7,555) due from companies with common directors.

At June 30, 2007, prepaid expenses include \$6,890 (July 31, 2006 - \$6,890) of management fees paid to a director of the Company.

7. NON-CASH TRANSACTION

Investing and financing activities that do not have a direct impact on current cash flows are excluded from the statements of cash flow. During the six month period ended June 30, 2007, and July 31, 2006 the Company did not enter into any non cash transactions.

8. COMMITMENTS

Effective August 1, 2005 the Company entered into a three-year lease agreement for office space at a rate of \$3,000 per month. The Company leases out a portion of the office for \$1,500 per month under an agreement for the term of the head lease.
